USA SWIMMING MINIMUM STANDARDS
Guidelines
For Utilization By
LOCAL SWIMMING COMMITTEE (LSC) OFFICIALS

MISSION

To develop and conduct mentoring programs to recruit, educate, train and certify USA Swimming officials to provide high quality and consistent officiating for our athletes.

The goal of having all Local Swim Committees (LSC) adopt these minimum standards for certification of officials is to set standards, that when applied, will accomplish the following:

* ensure a clear and consistent knowledge of the rules
* provide sufficient time in training to assure familiarity with all levels of competition
* provide opportunity to work on the deck and advance through the certification process
* allow automatic acceptance at the Stroke & Turn level between all LSCs meeting the USA Swimming Minimum Standards Guidelines
* ensure professionalism in all aspects of the word “team” while in attendance at a swim event both on and off the deck

The sessions referred to in the guidelines should be of duration to assure sufficient time to observe a significant number of swimmers and should contain a complete schedule of events to provide the opportunity to observe all strokes.

LSC’s may set minimum standards for additional positions such as Referee (Non-Starter), Clerk of Course, Timing Judge, Equipment Operator, etc.

Any exception of less than these minimum standards must be approved by the National Officials Chair who may stipulate appropriate conditions for each exception.

October, 2013
