

**Carson Tigersharks Diversity Grant Stats:**

Number of athletes that were served: 22

68% were non-Caucasian swimmers; 32% were Caucasian

The funding provided summer dues paid in full or half for the 22 swimmers; 10 full and 12 half

All swimmers attended a meet and are legal in half the strokes. Many were able to swim only a 25-yard freestyle or backstroke when they started and without proper technique. They all now swim with face in the water and proper body position for all strokes. All dropped time from one meet to another in events swam more than once

We can grow our program with continued success of those involved and word of mouth and advertising to targeted areas
