

Motion – 2410ADM02 ADA WEBSITE UPDATE

Motion to approve a one-time expenditure of no more than \$4,000 to update the Pacific Swimming website so that it is machine readable for those who are visually impaired.

Purpose: The Americans with Disabilities Act (ADA) advise organizations to make their websites accessible to the visually impaired. Our site is out of compliance, leaving us vulnerable to lawsuits. Apart from making our site and LSC more accessible to those with a visual disability, this update could potentially save us between \$5000 and \$20,000, which is the usual range for a settlement of this kind. This would be an addition line item 62100 in the 2024-2025 budget.
