Recurring projects and operations

1. Monthly newsletters published for AG, Senior, and scheduling updates.
2. Monthly analysis of CBA meets, splashes; tracking meets that close within 24 hours of opening; surveying coaches whose teams have priority registration on how many athletes got shut out when a meet closes within 24 hours.
3. Sharing USAS Flywheel at each meeting. (in shared file)

Projects in the works

1. Working with Sierra Nevada and Pacific reps on creating a senior meet in July 2028, aiming to get the senior athlete from BB to Sectional level a high quality prelim/final meet at the end of the summer.
2. Working with clubs who are not attending or have very few athletes attending non-qualifier meets in July to try to start their own meet.
3. 2027-28 competition schedule is started.
4. Completed visit to Z4 for RENO King of the Hill meet- working on a plan for Z4 to increase splashes and bring outside groups into the zone.

Finished projects since last HOD meeting

1. Recommended to BOD in July: (in shared file)
    a. Block Party meets are more insignificantly affecting total sanctioned splashes than significantly affecting them. We increased over 15,000 BP splashes and increased sanctioned splashes by a few hundred in 2025-26 compared to 2024-25.
    b. When there is priority entry and/or team assignments for CBA meets, anticipated attendance must be accounted for in order to prevent meets closing early and athletes getting closed out.
2. Site Assignments for 2027 Adam Szmidt Summer LC Champs meets posted
3. September BOD retreat data and splashes (in shared file)
4. Surveys completed for Summer AG Champs, Summer Far Westerns, July Senior meet.

Data researched completed (in shared file, part of July BOD report)

1. Sanctioned splashes in 2025-26 were .79% higher than 2024-25 (~1600 additional splashes) and .14% lower than 2023-24 (~300 splashes fewer)

2. Biggest opportunity for improving these numbers is athletes who are getting closed out of CBA Meets.

Meetings attended - May 18-Oct 20, 2026

- 5x PC Age Group committee meetings
- 4x PC Senior committee meetings
- 15x zone meetings
- 4x LSC leaders meetings put on by USAS
