This is a matter for discussion at our next Z1S board meeting.

We'd have to do chase starts for sure. You might be able to get away with 1000 swimmers since champs meets don't have the 4-hour rule. We could do all 50 and 100 meter events except for IM, which would have to be the 200 IM.

200 MR and 200 FR for all age groups is OK by me also. WEST has blocks at both ends of the pool (or can set up that way).

Hello there.

My recommendation is the following

2 8 lane courses (Chase starts)

700 swimmers per session

3 events per swimmer

Do relays at end, 200 MR and 200 FR for 10-Under, 11-12, 13-14, 15 older. 3 teams per age group/gender (no scoring since this is a team based event)

JO Minus for time entries.

Should be what we do.

MG

At most and that means chase starts. We do have the advantage of not having to hold finals.

Guiselle – how many swimmers entered the LC JO meets at WEST in past years?

Mike P.
