

## Zone 1S Officials Report 2017-18 Season

### Trainee Status

We collected 76 names of individuals interested in becoming officials last season, of which 25 (33%) completed their certification. Eleven (11) individuals are considered to be Apprentice Officials, where they have completed the Admin Requirements and are able to work on deck supervised.

We have 17 individuals who attended clinics late in the season and are waiting for the new season to kick-off to register with USA-S, and complete the other requirements.

The trainee queue for the 2018-19 season is starting out with around 40 names.

## Official Activity for 2017-18 Season

The pivot table below give an overview of Official Activity by club for the past season.

There were over 1600 sessions worked by Zone 1S officials. On average, most officials worked around 8 to 10 sessions during the season. This is most likely because officials are required to work 8 days per calendar year to sustain their certification. For some of the clubs, the average sessions per official is skewed because they had one or two officials with their club that worked far more than the average 8-10 sessions. Our unattached officials (officials without swimmers) averaged about 30 sessions each, and our zone is still heavily dependent on this group of officials.
